

Printing Instructions to reproduce the Fuel Poverty Leaflets and Posters

1. Leaflet - Fighting Fuel Poverty ... Helping People Stay Warm

Use [FPleaflet_A4_black.pdf](#) to print out a black and white copy of Fighting Fuel Poverty ... Helping People Stay Warm as a double-sided sheet, as shown on pages 53 and 54 of the Fuel Poverty and Health book.

Use [FPleaflet_DL_colour.pdf](#) to print out a colour copy of the leaflet Fighting Fuel Poverty ... Helping People Stay Warm, that can be folded to make a one-third A4 (DL) leaflet - the same format as the sample colour leaflets supplied in the Fuel Poverty and Health toolkit.

2. Poster: Is Your Home Cold ... Damp... Draughty?

To reproduce the poster

Use [FPposter.pdf](#) to print out a copy of the A4 poster. You can print it in colour (or in black and white if you only have a mono printer). If you wish to change the boxed text, use poster.doc instead (see below).

To adapt the poster for your use

Use [FPposter.doc](#) if you wish to change the text in any of the lower half of the poster. You will not be able to change the text in the red title box. You can print the poster out in colour (or in black and white if you only have a mono printer).

3. Client referral form

Use [FPreferralform.doc](#) to print out a copy of the client referral form shown on page 56 of the Fuel Poverty and Health book. You may first wish to add a title to the form and, at the bottom, an instruction about to whom the client should give or send the form.

Note: Printing large quantities

If you wish to print a large quantity of the leaflets or posters and would like a copy of the original artwork on CD to give to your printer, please contact the National Heart Forum at: webenquiry@heartforum.org.uk
